PREFACE.

We send forth our work, fully realizing that perfection is unattainable; yet so carefully and thoroughly has the labor been performed, that it will certainly prove to be generally correct and satisfactory.

The arrangement of the work, we trust, will prove more satisfactory than that of other publications of a similar character, the names being arranged, first alphabetically under different towns (including San Francisco), again under the heading of each business; also a brief descriptive sketch of each place.

The circulation is the largest and the price the smallest of any similar work heretofore published.

The more important towns are represented, and while a few have been omitted, the work as a whole will be found thoroughly reliable, and the compilation accurate and complete in every respect, up to the date of publication.

We will be particularly obliged to any person who, where errors are discovered, will send us corrections by mail, so that we can rectify them in our next issue.

We can hardly express, in words, our thanks for the very liberal patronage bestowed.

Benicia,

SOLANO COUNTY,

At one time the Capital of the State, is pleasantly situated on the bay, 25 miles northeast of San Francisco. In earlier days it was quite prosperous, but has since declined much in importance and population. Its nearness to San Francisco is against its ever becoming a place of any great size or importance.

Chico,

BUTTE COUNTY,

The largest town in the county, with a population of 3,500, is situated on the Central Pacific railroad, 95½ miles above Sacramento, and 25 miles northwest of Oroville, the county seat. Agriculture is the chief source of support; but the lumber trade has of late years become also quite a means of wealth, together with its adjacent mining interests, making it a flourishing town.

Colusa,

COLUSA COUNTY,

The largest town and the county seat of Colusa county, is a thriving and prosperous place, situated in the upper Sacramento valley. The growth of the town has been slow but sure, and there are still good openings for enterprising businessmen. Being situated in one of the finest agricultural districts of the State, its resources are therefore of the most substantial character. Its population numbers 2,500, and to the youth of the community the educational facilities are excellent.

Dutch Flat,

PLACER COUNTY,

One of the oldest mining towns in the
State, is the largest and most important
place in Placer county. It is no longer a

mining camp of uncertain longevity, but a
permanent town with a certain future.
The same localities where once the indi-
vidual miner built his solitary cabin, set
his stakes and washed or rocked out a
fortune in a few weeks or months, are now
held by large companies made up of capi-
talists, or, as in the case of Alvinza Hay-
ward, owned by men of immense wealth.
Improvements are continually being made
in and about the place. The latest addi-
tion to the many good and even handsome
buildings is the school-house, which for
commodiousness and beauty has not an
equal outside of the large cities. A well
edited independent newspaper, the "Fo-
rum," is issued Thursday of every week.
The population is estimated at 2,000.

Georgetown,

EL DORADO COUNTY,

A small mining town of El Dorado county, is situated in the Sierra Nevadas, and is distant from San Francisco 173 miles. Although the town has for some years been laboring under disadvantages attendant upon the failure of the mines, there has apparently been a reaction and the town is putting on a more prosperous appearance. Its chief resources are its mines. Population 2,000.

Grass Valley,

NEVADA COUNTY,

Is an early town of California, situated in a fine valley, near the base of the Sierra Nevadas. Placer mining was its first sup-

Insurance at actual cost in the Nevada Mutual Life Insurance Company; H. A. Gaston, President, Virginia, Nevada.

port, but it has since become renowned for its quartz mines. The town has steadily increased in population, wealth and importance since its very first settlement. Its resources are almost exclusively mineral, and so extensive as to render this place one of the wealthiest in the State. It has a population of 4,500.

Marysville,

YUBA COUNTY,

Is the largest city in the State north of Sacramento, and is the county seat of Yuba county. Situated at the junction of the Yuba and Feather rivers, it has a commercial interest of considerable value, as the Yuba is navigable to steamers of light draught the entire year. It was first surveyed in 1849, but not incorporated until 1851. Until 1857 it grew rapidly, when, with the decline of the placer mining, it also declined and steadily decreased in population until about eight years since, when it began to revive, and has since become a thoroughly enterprising and lively place. Through its railroad advantages, connecting it with many of the largest towns and cities of the State, it has become the central point of northern California. Its population is estimated at about 7,000.

Modesto,

STANISLAUS COUNTY.

This thriving town is situated in the beautiful and fertile valley of San Joaquin, and is the county seat of Stanislaus county. It is connected with the principal cities of California by the Visalia branch of the Central Pacific railroad. The chief support of this, as well as many other towns in that region, is agriculture.

Monterey,

MONTEREY COUNTY.

Probably no place in California contains so much of interest to the traveler as Monterey. Its natural advantages are unequalled in many respects. It has one of the finest harbors in the world, and many predict for it a great future as a commercial center. The climate is considered one of the most delightful in the world, being neither too hot or too cold. Flowers bloom perpetually. For bathing purposes the beach is unsurpassed. There are many objects of historical interest in and around the town to attract the curious, the old Catholic church, built in 1794, commanding undoubtedly the largest share of attention; and all who devote an hour or so to examining its sacred precincts feel well repaid for the time thus spent. Time and space forbid our enumerating more of this most interesting old town, California's ancient capital, and we therefore leave the rest for the inquirer to learn from more complete historical sketches.

Nevada City,

NEVADA COUNTY,

Situated but 4 miles from Grass Valley,
 has an advantage over that place from its
 local position, and being the county seat.
 It is one of the finest mining towns of the
 State, its mines yielding it is said upwards
 of \$1,000,000 annually. It has an excel-

lent agricultural district surrounding it,
 which adds very materially to its wealth,
 but its chief support is its mineral pro-
 ductions. Its population numbers 3,500.

Oakland,

ALAMEDA COUNTY.

Is situated on the east shore of San Francisco Bay, opposite and about six miles distant from San Francisco. The city receives its name from groves of evergreen oaks, which covered the ground which it now occupies. It is a beautiful and rapidly growing city, its population having increased about 19,000 in the past five years, it now numbering 30,000. It is the center of the railroad system of the Pacific coast. Its educational facilities are unlimited. The University of California is located at Berkeley, a village it may be said in the suburbs of Oakland. Several private schools and seminaries of excellence are located here, and the public schools are of a high order. The State asylum for the education of the deaf, mute and blind is particularly interesting to visitors. The climate is probably the most healthful and desirable of any city in the State, it never being subject to the excessive heat of the interior towns, and protected from the winds and fogs which at

seasons of the year renders living in San Francisco very unpleasant.

Oroville,

BUTTE COUNTY.

An exceedingly pleasant town, situated in the foothills, about 28 miles from Marysville, and is connected by rail with that place. In early days it was a very prosperous place, owing its prosperity to its rich placer mines, but, like the neighboring town of Marysville, with the decline of those mines its decline was dated, and from a population of 12,000 it was reduced to a few hundreds. Agriculture has since become its main support. Within the past five years it has steadily improved, and its inhabitants now number 2,000. It is the county seat of Butte county.

Petaluma,

SONOMA COUNTY,

Is situated in the southern portion of Sonoma county, 37 miles from San Francisco. Its site is one of the finest on the Pacific slope. From its healthfulness it is deservedly recommended as a place of residence. It is connected with San Francisco by railroad and steamers of the San Francisco and North Pacific Railroad Co.

Bradley & Rulofson have the only Elevator connected with Photography in the World.

The first settlement was made in 1850, and the town has ever since been universally regarded as one of the most promising in the State; as, unlike the majority of cities and towns of California, speculation has had no part in its growth, it having simply and steadily kept pace with the surrounding county, which is purely agricultural, and yielding almost every variety of fruit, grain and vegetables in abundance. The population of the city is estimated at 4,600

Placerville,

EL DORADO COUNTY,

Is an incorporated city and county seat of El Dorado county, situated in the foothills of the Sierras, about 50 miles from Sacramento. Is the oldest town in the mining district, it having been settled in 1848. It was originally known as Hangtown, but as the town grew and advanced in importance the citizens changed it to its present name. With the transfer of travel to other routes and the decline in mining the place declined, and its population reduced to less than 1,000. But with the interests of agriculture the prospects of the town have been brightening, and the population now numbers 1,700.

Red Bluff,

TEHAMA COUNTY,

The largest town and county seat of Tehama county, is built at the head of navigation on the Sacramento river, and thus commands a fine trade with the surrounding country. It is in the midst of a rich agricultural district and luxuriant grazing lands, which are invaluable resources to a steadily increasing business. It has a population of 3,500; is distant from San Francisco 274 miles.

Sacramento,

SACRAMENTO COUNTY.

The varied history of this city is too well known to all business persons and readers of this country to need repetition in this work. Suffice it to say it has survived the direst calamities and adversities—fire and flood—and holds its place among the most flourishing cities of the coast. The latest estimation of its population is about 22,000. It being centrally located, and the capital of the State, attracts an excellent business to the place, and the capital buildings, with its surrounding beautifully laid-out and well-kept park, calls a visit from the pleasure-seeking tourist. The city itself is so quietly beautiful that it cannot fail to create a feeling of pleasure in every one beholding it. Most of the cities and towns of the coast are easily accessible from here, either by rail or steamboat, and is but 84 miles distant from San Francisco, or a ride of by rail of about five hours' duration via Vallejo, and from seven to eight hours via the Overland route.

This is the oldest firm in the city; first
established in the Spring of 1850, under
the style of "Forshee, Booth & Co.,"
composed of John Forshee, L. A. Booth,
and Job Dye. The two latter gentlemen
retired in the Spring of 1851. About
the same period Charles Smith and
Newton Booth established business under
the name of Smith & Booth. After the
fire of 1852, L. A. Booth became a mem-
ber of the firm, which was then known
as Booth & Co. Kleinhans & Co., estab-
lished in 1852; Theodore P. and D.
Kleinhans, partners. The latter firm
united with the Kleinhans constituting
the firm. The Kleinhans retired in 1860,
and Newton Booth again entered the
firm. L. A. Booth and T. L. Barker
retired from the firm in 1862, and J. T.
Glover became a member. This firm
still continues, and that, too, with all
the surroundings of prosperity. Its
business relations extend not only
through the northern and southern
counties of the State, but also through
the entire State of Nevada. The firm
also do business in San Francisco, under
the firm name of W. W. Dodge & Co.

Salinas City,

MONTEREY COUNTY,

Has for its site one of the finest in the State. The Salinas river, upon which it is situated, though not navigable, is clear and swift, and possesses many attractions for the city. The city was first surveyed and plotted in 1868, and has grown rapidly ever since. It is situated 118 miles from San Francisco. Salinas has every advantage for becoming a large and prosperous town, for being as it is a comparatively new town, it has made rapid strides in its progress. Its facilities for transportation of grain and produce are excellent, thus assuring no little commercial importance.

San Jose,

SANTA CLARA COUNTY.

San Jose, the beautiful, is the home of wealth and refinement, well deserving its appellation. It is the county seat of Santa Clara county, and has a population of 16,000, which is rapidly increasing. The Court House is the best of its class in the State. The State Normal School building, a beautiful edifice, with a frontage of 172 feet, is located here. The new building of the University of the Pacific, an institution under the control of the Methodist Church, is situated between San Jose and Santa Clara, and is an additional ornament to the beautiful avenue known as "The Alameda." Its streets are broad and macadamized. In the principal street is a railroad for horse-cars, running through the Alameda, three miles to Santa Clara. The Alameda, which distinguishes San Jose, is a street on either side of which are trees that meet and form a bower, for which we have to thank the Padres of the Mission, as they were planted by them in 1799.

Santa Cruz,

SANTA CRUZ COUNTY.

This beautiful city is located on Monterey bay, in the southeastern portion of Santa Cruz county, in one of the most delightful spots in the State, 120 miles from San Francisco. It is noted for the beauty and variety of its surrounding scenery, and healthfulness of climate, which have made the city widely known and the most popular summer resort of California for invalids and pleasure-seekers. It is but seven miles distant from the Big Tree Grove, which can be reached by rail, if desirable. It has had a steady and permanent growth, and has become a populous and thriving city, claiming a population of 5,000. The chief interests of the country surrounding is manufactures, on which the prosperity of the town mainly depends.

Stockton.

SAN JOAQUIN COUNTY,

The county seat of San Joaquin county, is situated at the head of a slough of San Joaquin river. The surrounding country is very fertile, and contributory to its interests are large mining districts. The Central Pacific railroad passes through the town, thus connecting it with all places of importance in the United States. The city is supplied with water by an artesian well 1,002 feet deep. The State Insane Asylum is situated in this place. The town is in a very prosperous condition, and has a population of 13,000. It is 92 miles from San Francisco.

Truckee,

NEVADA COUNTY,

This enterprising town contains a population estimated at 1,800; is situated on the line of the Central Pacific railroad, 119 miles from Sacramento city; is a great lumber shipping point. Here, also, the pleasure tourist takes the stages for Donner Lake and Lake Tahoe, the most popular summer resorts of California. The Truckee river flows through the town, and is noted for the very fine fish that swim in its waters.

Vallejo,

SOLANO COUNTY,

A town of about 4,000 inhabitants, 28 miles from San Francisco. It is the terminus of the Cal. Pacific railroad. The Orphans' Home, belonging to the Order of Good Templars, is located here, and quite an ornament to the place. The U. S. Navy Yard at Mare Island contributes largely to the support of the town, furnishing employment to a large number of men.

Nevada Mutual Life Insurance Company, Capital, \$1,000,000; Odd Fellows' Building, Virginia, Nevada. A Bretz, General Agent.

NEVADA.

Carson City,

ORMSBY COUNTY,

The capital of the State of Nevada, is situated on the west bank of the Carson river, in Eagle valley, which is noted as rivaling all others in the State in point of agricultural qualities. Carson is the county seat of Ormsby county. The place derives its name from the celebrated trapper, Kit Carson, and is the oldest town in the State. The beautiful and finely finished Capitol building, the substantial structure of the U. S. Mint and the State Penitentiary, a mile and a half from town, are points of great interest to visitors. Its population numbers some 9,000. Although Eagle valley, in which Carson is situated, is largely agricultural, yet its main reliance is the wood and timber trade, the mountains around affording an almost inexhaustible supply.

Gold Hill,

STOREY COUNTY,

Is an incorporated mining town, situated so near to Virginia, that the two places are fast merging into one. The town is a busy thriving place, such as prosperous mining towns are wont to be. One half of the celebrated silver-producing Comstock lodes is within its municipal limits, and Gold Canyon contains the works of some of the most noted silver mines in the world. There are upwards of 7,000 inhabitants in Gold Hill, and everything in and about the place indicates a stirring and thriving community.

THE

SATURDAY MERCURY,

Formerly the RED BLUFF INDEPENDENT; since 1874, THE PEOPLE'S CAUSE. Originally established in 1860.

The Oldest Newspaper Published in Tehama County.

PUBLISHED EVERY SATURDAY AT

RED BLUFF, CALIFORNIA.

THE SATURDAY MERCURY is the great Popular Family Journal of Northern California; the Cheapest paper of its size outside of the great cities. Three Dollars a year to single subscribers; in Clubs of five, Two Dollars and Fifty Cents each.

THE SATURDAY MERCURY is published in the midst of the finest Agricultural, Wool-Growing, Manufacturing and Lumber regions in the State. It is the representative newspaper of its section, hence the best Advertising medium in the upper Sacramento Valley.

THE SATURDAY MERCURY.—The journalistic trinity—Independent, as of old—as jealous in the People's Cause as when it bore the title, a veritable Mercury—it visits the homes and firesides of its thousands of readers, better for the new christening, more chaste for the new plan, and destined to become more popular than ever before.

Several Choice California Stories

Will appear in its Columns during the Year 1877.

THE SATURDAY MERCURY Advertising rates will be furnished on application.

Address, after January 15th, 1877, THE SATURDAY MERCURY, Red Bluff, Cal.

ADVERTISING RATES, REASONABLE.

Salinas City has a population of Four Thousand, and rapidly increasing. It is situated in the heart of the great Salinas Valley, one of the largest and most fertile in the State.

A GREAT SUCCESS!

California Agriculturist

—AND—

LIVE STOCK JOURNAL.

A Household Magazine and Rural Monthly for In-doors and Out.

Is growing rapidly in the favor of the people of this State, and all over the Western Slope. The people everywhere, of every business pursuit, appreciate and are calling for it. Subscriptions have increased so steadily the past year that the publishers are resolved to make the Subscription List

Fifteen Thousand before 1878.

Volume VIII, commencing with the new year, will introduce some writers of ability, in the various departments of Instruction and amusement.

Correspondence will be published from every part of the Pacific Coast. The Recipes alone will be worth ten times the price of the paper. The Information to Farmers will more than doubly repay the cost of the paper. The advice in Conservatory and Window Gardening will save more than the price of the paper. Talks to Mothers and Housekeepers on the Care of Children and in Household Matters, will be worth all the rest of the paper. The Hints to the Young in Industrial Pastimes, will prove to be of great value. The

MONTHLY PREMIUMS

Will each be worth the cost of the paper three times over. The Bound Volume at the end of the year will contain more practical information than any **TEN DOLLARS' WORTH OF BOOKS** that can be selected. As we make some profits from the advertisements, our subscribers get the paper for less than cost. All enterprising farmers and families should have it. Many of our principal citizens are already subscribing for it. They find it interesting and profitable reading for themselves and their families, and just the

JOURNAL TO SEND BACK TO OLD FRIENDS IN THE EAST

The Volume for 1877 will be a **MOST COMPLETE ONE** in all its Departments.

Subscription Price only \$1.50 a Year.

DAILY AND WEEKLY**STOCKTON HERALD.**

PRESTON & BELL, PROPRIETORS, STOCKTON, CAL.

THE STOCKTON

DAILY EVENING HERALD

Is published every evening at the rate of \$10 00 per year ; \$1 00 per month ; 25 cents per week ; 10 cents per copy.

It is extensively circulated in the City, County and San Joaquin Valley. It is an old and firmly established journal, and replete in all of its departments with carefully prepared matter of a character adapted to the tastes and wants of all classes of an intelligent and virtuous community. As a medium of legitimate business advertising, it possesses all of the advantages, and offers all of the inducements pertaining to and offered by first-class newspapers of general circulation.

THE RATES OF ADVERTISING are \$2.50 per Square per Month.

The Weekly Herald

Is a large eight page paper, published every Saturday, and is made up of the News, Miscellaneous and Editorial matter appearing in the DAILY HERALD from day to day. It contains a larger amount of reading matter, and of a

HIGHER ORDER,

For circulation in families, than any paper published in the San Joaquin Valley, or in fact, anywhere outside of the Metropolis ; and in these respects it is surpassed by few, if any, on the Pacific Coast.

The Terms of Subscription to the Weekly Herald are

\$4.00 PER YEAR.

LIFE RESTORER

Or, BAUNSCHEIDT'S LEBENSWECKER OLEUM.

To those suffering from disease, of whatever nature, even where it is considered past cure, is this card intended. Under this treatment all deadly and diseased matter is thoroughly eradicated from the system, through the pores and other natural channels; the blood is made perfectly pure, and through the blood, only, can the system be restored to health and vigor. By this process perfect health may be maintained as long as physical matter can be kept together. The treatment is simple, safe and sure. Operations are performed with perfect success upon all, from the infant of a few days only to those of old age, the effect of the Oil being manifested only when and where disease exists.

☞ No drugs nor medicines of any kind are given with this treatment, but instead, good, nourishing food. ☞ Living testimonials furnished all who visit me. Complete instructions and materials furnished those who desire to treat themselves or others, thus enabling every father and mother to become the "doctor" of their own family. I import all materials direct, and warrant them to be the genuine. Sent to all parts on application. Consultations free of charge.

HENRY RENKEN, Practical Baunscheidtist, office over Postoffice, Oakland, Cal. P. O. Box 443.

SMITHSONIAN

HYGIENIC MEDICAL AND PHRENOLOGICAL INSTITUTE,

Nos. 635 and 637 California St.,

Bet. Kearny and Dupont,

SAN FRANCISCO.

This Health Institute, through its universal formula of healing agencies and the scientific combination of medicine, surgery and hygiene, with its healthful dietary and entire water cure appliances, which consist of water dressings and the popular Electro-Russian and Turkish, Thermal, Sitz and Toilet Baths, together with the late inventions in Electro-Magnetism now employed in the Institute presents advantages to all persons afflicted with paralysis or any form of rheumatic complaints, liver or kidney diseases, nowhere else to be found on the Pacific Coast. Dr. Smith having for the past 17 years conducted a HEALTH INSTITUTE mainly in this city, making a specialty of the treatment of nervo-vital diseases, and delivered over eight hundred lectures, discussing the laws of mind, the nervous and sexual system; inviting criticism from every conceivable experience and standpoint wherein were involved the nature, causes and the best means of curing impotency, sterility, seminal losses, and general debility of every kind; it would, indeed, be strange if he had not arrived at many important conclusions, and the most specific means of curing all that intricate and insidious class of diseases in-

involved in the nervo-vital structures of the body that the mere private office and prescriptive practitioner has failed to recognize and provide for.

Consultations in regard to Health FREE, verbal or by letter.

BARLOW J. SMITH, M. D.

Phrenology,

Mental and Physical Hygiene.

Here all may obtain a truthful examination and a correctly marked chart at from \$2 to \$3. **Examinations without Chart, \$1.50.**

The Leading Commercial School on the Coast.

E. P. HEALD, President.

F. C. WOODBURY, Secretary.

Designed to impart a thorough English Education, a complete Business Training, and Practical Instruction in Modern Languages, Drawing, Telegraphy, etc.

The School-Room and Counting-Room

Are united upon a plan that secures to the student all the practical advantages of each. There is in operation a Banking House, with Checks, Drafts, Notes, Bills of Exchange, Certificates of Deposit, etc., fully illustrating the banking business. The school-room is elegantly fitted up with

**Merchandising, Jobbing, and Importing Emporiums,
Insurance and Importing Houses,
Commission and Forwarding Houses,
Express and Post Offices.**

DEPARTMENT OF TELEGRAPHY.

This department is a complete institution of itself, and affords facilities for learning Telegraphy practically and thoroughly. Instruction in this branch is of very little avail unless special pains are taken to train pupils for operators from the beginning; and a glance at our department will convince any one that we have the facilities for so doing.

INSTRUCTION FOR LADIES.

Ladies are admitted into all departments of the College on the same terms and conditions as young men. Their progress in all branches thus far has been most flattering.

GENERAL INFORMATION.

Pupils can enter the College at any time, and pursue their studies to graduation without interruption, if they see fit to do so. Pupils not sufficiently advanced for the Business Course can enter for instruction in the English Department.

Modern Languages and Drawing are optional studies, and may be taken or not, as the student may see fit; but no extra charge will be made for them when pursued.

The discipline of the school is very careful, in order to impart such habits as shall conduce to the future success of the graduates.

Visitors will be always welcome at the College, as we are pleased to have the public inform itself of the merits of our school.

For information on any point not fully understood, do not fail to call at the school, or to write to us.

HEALD'S COLLEGE JOURNAL,

Published monthly by the College and containing full particulars regarding the Course of Studies, Expenses, etc.; also, a large amount of interesting general reading, may be had free of charge, either at the College, 24 Post street, or by addressing

E. P. HEALD, President Business College, San Francisco, Cal.

SAN FRANCISCO.

San Francisco.

Probably no city in the world has had so remarkable a growth as has San Francisco within the last twenty years. It owes its origin to Catholic missionaries and Spanish soldiers, and was first occupied by white men September 17th, 1776. The settlement for some years was known as "Yerba Buena," but as it approached the dignity of a town it assumed its present name. Being situated upon one of the finest harbors in the world, land-locked, and thus protected from storms, it naturally had every advantage for becoming an extensive city, and since the discovery of gold in California its progress has been truly astonishing, although retarded at times in consequence of serious conflagrations. The streets are nearly all wide and well kept. Market street is the longest and widest in the city, and runs in a south-westerly direction, while many of the principal streets open into it and have their numbers begin at Market. On all the streets the numbers on the northerly or northeasterly sides are even numbers, while those on the southerly or southeasterly, are odd numbers. One hundred numbers are allowed to a block. The widening of Dupont street is soon to be commenced, which will add very materially to the appearance of that portion of the city through which it runs, and will also be a great advantage to the business portion of the city. The public buildings are substantial structures, designed for endurance. There are many private residences whose beauties of modern architecture, size and surroundings are a pride and ornament to the city. San Francisco can also boast of containing one of the largest and most beautiful hotels in the world. To the pleasure-seeker the facilities for gratifying his taste are unlimited, for nature and art here vie with each other to please mankind. The educational facilities cannot be excelled, and the religious community could not wish for finer or more commodious places of worship. But, of course, as in all large cities, the chief interests of all are centered in her business and commercial relations. There is seldom a complaint of dull times here, for her position as the principal seaport of the coast, and her connection with

the largest and most influential cities of the East by the great transcontinental railroad, affords her advantages which no city west of New York can claim. There is, therefore, always a brisk activity and animation throughout her thoroughfares. Her population is constantly and rapidly increasing, so much so as to become almost fabulous, and numbers now near 300,000 among her inhabitants. With the exception of an occasional epidemic, such as must necessarily visit every city of any size, San Francisco is no doubt a most healthful and desirable place of residence, for the sea breeze is both refreshing and invigorating, and the trade winds which sweep over the city in the summer season, or for about six months of the year, have a tendency to purify the atmosphere of the place, which might otherwise become heavy with disease.

BERNARD HOUSE.

Corner Georgia and Sacramento Streets,

VALLEJO.

The undersigned is desirous of informing the traveling public that he has recently taken the management of this well known, first-class House, and has re-arranged everything to the comfort and accommodation of the guests.

The House is admirably located, is large and commodious, being in every way adapted for families. The Table is always supplied with the best the market affords.

The Street Cars pass the House, connecting with the various boats and trains for all parts of the State. Hacks are in attendance to convey guests to and from the depots, or any place desired.

Every effort will be made to please and render guests comfortable.

ADRIAN X. IRIZAR, Proprietor.

Bradley & Rulofson have the only Elevator connected with Photography in the World.

San Francisco and North Pacific Railroad.

The tourist or pleasure seeker, starting from San Francisco on the new and elegant steamer, James M. Donahue, the fastest and safest ever yet built on the Pacific Coast, glides rapidly through San Francisco and San Pablo Bay—in view, Alcatraz, Angel Island, Red Rock, the Brothers, and other points of interest ; until, winding up Petaluma Creek, he reaches the town of Donahue, 34 miles from San Francisco.

Here the Machine Shops, Round House, and Car Shops of this Company are situated, and the train passes swiftly through the yard, amidst the cheery ring of hammer and anvil, on its way to Cloverdale, 56 miles distant. Waving fields of grain, orchards and vineyards, with the most beautiful and diversified scenery known in California, are to be seen on every side. Passing rapidly through the towns of Petaluma and Santa Rosa, you reach Fulton, the junction of the Fulton and Guernville Railroad. Here you can change cars, and by a rapid run of 15 miles reach Kobell's Mills and Guernville ; where new wonders in the shape of immense redwood trees, are to be met with—groves of redwood trees standing so closely together as almost to exclude daylight, three hundred feet high, with a diameter averaging from 12 to 18 feet. The scenery is unsurpassed, Russian river flowing swiftly and clear in the midst ; and the awe with which one beholds it is only broken by the rapid swish of the saws, and shouts of the workmen in the adjoining mills. Returning, he again continues his journey north, passing Healdsburg, Lytton's and Geyserville, until he arrives at Cloverdale, the present terminus of this road. Close connection is here made with all stages ; but the center of attraction to the tourist are the great Geysers of California, only 15 miles distant. Starting with Van Arman or Kennedy, two of the most noted drivers of the Coast, in a comfortable and commodious stage, he rapidly ascends Sulphur Cañon. High, rugged-looking mountains, overlapping each other in tiers far into the distance ; the surging stream with its immense boulders far below ; the narrow, winding road, snake-like in its turns, make a truly grand and impressive scene, and one that will leave an indelible remembrance on the mind of the traveler. After a short ride the Geysers are reached, and here I take leave of the tourist, with the simple remark, that for accommodation and comfort the San Francisco and North Pacific Railroad is the shortest, quickest and cheapest route to them and other points of interest in Sonoma County.
